

Course Evaluation

Student: _____ **Course:** _____

1. What teaching methods did you find MOST effective for learning or understanding the material? In your opinion, what made these activities, assignments, or methods effective or engaging? The more specific your feedback, the better we can emphasize these aspects of the course moving forward.

2. What teaching methods did you find LEAST effective for learning or understanding the material? In your opinion, what made these activities, assignments, or methods not very effective or engaging? The more specific your feedback, the better we can avoid these aspects of the course moving forward.
